CeDe Safety Glass P8B

on wheel loader L90F

The CeDe Safety Glass P8B is fitted in a steel frame in the front and assembled by using glue in the back and the sides of the wheel loader cab.

The CeDe Safety Glass P8B is a 22 mm thick armored glass according to standard EN356.

CeDe Safety Glass P8B in case of emergency can be opened from the side with an inside handle.
